JOURNAL ACHIEVEMENTS

DE GRUYTER OPEN

2013 VERSITA MILESTONES

1. *Versita expands activities. The company changes name to De Gruyter Open.*

   Versita's owner De Gruyter has accumulated all Open Access activities under a single, new imprint - De Gruyter Open [www.degruyteropen.com]. Versita has been fully integrated into this new entity.
   Already, De Gruyter Open's portfolio consists of more than 100 books and over 350 journals. In 2013 alone, Versita published over 15.000 journal articles in Open Access. With the introduction of De Gruyter Open in 2014, the company plans further to expand activities beyond Europe into the USA and Asia. All Open Access titles are published under the Creative Commons License CC-BY-NC-ND. However, authors and partner institutions have the option to use more liberal license agreements if they so choose.

2. *De Gruyter Open introduces Crosscheck free of charge for all Customers to ward off plagiarism*

   As a leading open access publishing services provider, De Gruyter Open is committed to maintaining high quality of publications by its Learned Societies clients. In accordance with its policy of meticulous peer-review, De Gruyter Open has implemented CrossCheck to assist Learned Societies with robust tools to assure the authenticity of the contents of deposited articles. With this improvement the publisher aims to detect and act upon any signs of scientific misconduct and prevent any duplication of research to appear on De Gruyter Online.

3. *Journal Citation Report adds more De Gruyter Open titles to its list*

   New journals from De Gruyter Open portfolio have been selected for the first time to be included in the Journal Citation Report in 2013.
   For majority of De Gruyter Open journals, the JCR report has recorded the second consecutive increase in Impact Factor. In 2013 the company has also initiated cooperation with a variety of specialist services.

D. DISTRIBUTION IN 2013

Following the launch of De Gruyter Open, we have decided to include an agreement with **Portico** http://www.portico.org/digital-preservation/ to the standard solutions offered to our partners. This move will ensure the long-term monitoring, archiving and management of your electronic publications, stored on the DG online platform. As a result, information which now exists in digital formats, is backed up and distributed to safeguard continued access in the long term.
